## Film Facts

1903

**Alice in Wonderland**

The very first movie adaptation was a 12-minute silent film.

1933

**Alice in Wonderland**

A young Cary Grant played the Mock Turtle in this version. Although he was in full costume it's one of his earliest acting gigs.

1951

**Walt Disney's Alice in Wonderland**

Slated to be Disney's first animated film, but they went with *Snow White and the Seven Dwarfs* instead.

1972

**Alice's Adventures in Wonderland**

Winner of British Academy Film Awards for Best Cinematography and Best Costume Design, this version features Dudley Moore as the Dormouse.

2010

**Alice in Wonderland**

Disney produces another Alice film, this time with creative genius director Tim Burton. This is the second highest-grossing children's book movie adaptation of all time, right behind *Harry Potter and the Deathly Hallows 2*.

2016

**Alice through the Looking Glass**

Tim Burton takes a step away from directing and produced this sequel. Unfortunately, the film lost Disney studios 70M.
