Water Update - May 24, 2019

Readings: The last (5) PFAS tests of finished water have been below the (ORSG) health advisory of 70 ppt. We will continue to test monthly and will post results as they become available.

Treatment: The Town continues to work on the infrastructure for temporary treatment at the Chestnut Filtration Plant. Equipment is anticipated to be delivered starting on May 30th. The General Contractor is currently working on installation of a concrete pad for temporary treatment at the Cranberry Well site.

Bottled Water Program: The bottled water program has been suspended.

Please continue to check the Town website for updates.
