Advanced Metering Infrastructure Opt-Out Cost Adjustment Provision Application

Water meters installed in your home, do NOT emit any radio frequencies, the water meters are wired to a transmitter box – typically installed outside your home. These transmitters emit very small radio frequencies. Gas, Electric, Water and several other meters outside your home / at your neighbors also may or may not emit different radio frequencies.

An information packet regarding the amount of radio frequencies emitted by the new Neptune water meters and any health impacts is available on the Hudson Department of Public works (HDPW) office as well as our website.

Per the Town of Hudson, Select Board meeting held in February 2024 and April 2024, Department of Public Works – Water Division, is authorized to institute the Advanced Metering Infrastructure Opt - Out Cost Adjustment Provision, customers may have their Hudson Water meter Advanced Metering Infrastructure (“AMI / AMR”) water meter replaced with a non-AMI / AMR water meter that does not utilize a radio frequency transmitter.

By signing below, you (“Customer”) agree to the fees listed in HDPW’s Advanced Metering Infrastructure Opt-Out Cost Adjustment Provision as amended from time to time.

Effective April 20, 2024, the fees are as follows:

Requiring Meter change out and Installation of Non-AMI meter wall unit	\$50.00
Quarterly Manual Meter Reading	\$100.00

The one-time fee (if applicable) will appear on your first bill after the non-AMI meter wall unit has been installed at your premises. The quarterly manual meter reading fee will begin on the same bill.

If you later choose to have an AMI/AMR meter reinstalled, a one-time reinstallation fee will apply that is equal to the fee listed above for the change out. Then, starting on the first bill after all meter equipment have been replaced in your property, with AMI/AMR meter wall units, the quarterly fee will be waived.
